

Sensory Play Activity Cards

10 activities to support sensory integration and body awareness

1. Playdough Squeeze	Roll, squeeze, and flatten playdough with both hands for 5 minutes. <i>Skills: Fine motor, hand strength, tactile processing</i>
2. Obstacle Course	Set up pillows, chairs, and tunnels to crawl through, jump over, and balance on. <i>Skills: Gross motor, body awareness, proprioception</i>
3. Rice Bin Digging	Fill a bin with rice or dried beans. Hide small objects inside for the child to find. <i>Skills: Tactile exploration, fine motor, sensory tolerance</i>
4. Wall Push-ups	Stand arm's length from a wall. Push both palms flat against the wall and push 10 times. <i>Skills: Proprioceptive input, upper body strength, regulation</i>
5. Bubble Wrap Stomp	Lay bubble wrap on the floor. Walk, stomp, or jump on it barefoot. <i>Skills: Tactile input, auditory feedback, body awareness</i>
6. Painting with Fingers	Use finger paints on a large sheet. Encourage both hands and different pressures. <i>Skills: Tactile tolerance, bilateral coordination, creativity</i>
7. Bear Crawl Race	Get on hands and feet (not knees) and crawl across the room like a bear. <i>Skills: Gross motor, core strength, bilateral coordination</i>
8. Weighted Blanket Wrap	Wrap child snugly in a blanket like a burrito for 2–5 minutes if they enjoy it. <i>Skills: Deep pressure input, calming, body boundary awareness</i>
9. Bead Threading	Thread large wooden beads onto a thick shoelace or pipe cleaner. <i>Skills: Fine motor, hand-eye coordination, concentration</i>
10. Jumping on the Spot	Jump 10 times on both feet, then hop 5 times on each foot separately. <i>Skills: Gross motor, balance, vestibular input, energy release</i>
