

Assembly Instructions:

1. Print a set of CVC books and place the set in a neat pile. Please note that one set will create four little flip books for your students. Copy additional pages as needed.

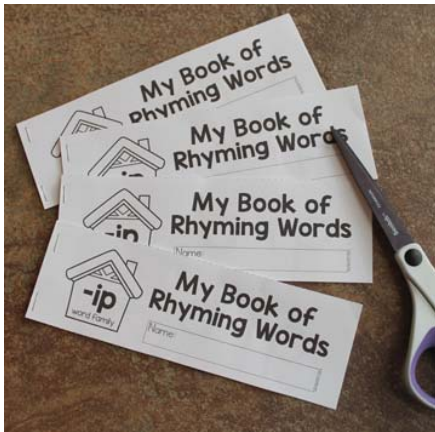

2. Place two staples on the left side of each of the four little books in the set. See staples in the illustration.

3. Open the set of stapled books and cut out the word and picture cards from page 2 and 3 (the word flap pages) *Optional....kids can cut these out from their individual books instead. See the previous page for ideas for using these word cards.

4. Close the set of books. Using the dotted lines on the 1st page as a guide, cut the set of CVC books. After cutting, you will have four little books.
